

*Certified VET trainer in the construction sector  
(CertiVet)*

2014-1-PL01-KA202-003624

01.09.2014 – 31.08.2016

**Multiplier Events**

**Katarzyna Sławińska**  
**Galati, Romania 11 – 12.04.2016**

**The main aim of the project is:**

**to develop the model of training and certification / validation of trainers' qualification in the construction industry acquired in non-formal and informal learning through work experience, based on an agreed description of the professional competence standard and the requirements of the European standard for certification of personnel ISO/IEC 17024:2012.**

## Objectives and tasks of the project:

- To create an effective set of competence standards for VET trainers, as well as modular programme with the packages for trainer/learner based on the research and the cooperation between the experts from the partners countries and on the needs resulted from the labor market;
- To elaborate a set of procedures for competence validation, based on solutions related to the ECVET system;
- To provide a set of software tools able to put in practice the procedures of competence validation and qualification previously created in the frame of the project;
- To integrate the work results in a consistent model of certification of qualification, that will be evaluated and certified in the partners countries.

According to the application each partner is obliged to conduct a **Multiplier Event** as a Local dissemination workshop in Poland, Romania and France.

The aim of this event will be to conduct the dissemination activity with the participation of experts (focus group) in construction sector. This will entail the verification of developed curricula, e-platform content and the model of validation and certification of VET trainers in the construction sector.

**Duration: 01.04.2016 – 30.06.2016**

**In the piloting phase, 20 VET trainers from each partner organisation will take part in final evaluation and functionality of e-content (min.75 people).**

**There will be organised 4 pilot implementations (local seminars) where there will be checked:**

- **Professional competence standard**
- **Modular curriculum**
- **Model of validation and certification**
- **E-content**

**Verification of the developed curricula**

**Verification of the developed e-platform**

**Verification of the developed validation and certification model**

**During the prepared local workshops with selected target group there will be pilot implementation of the usefulness and effectiveness of developed curricula as a supporting tool for development of the competencies of VET trainers in the construction sector. During the event among 20 participants will be able to check the usefulness of the prepared content and they will give feedback.**

## **Reports from evaluation of developed curricula, e-content of the platform and developed validation and certification model**

**This international report will present the results of tests which aimed at evaluation of the educational e-package and were conducted in Poland, Romania and France. The report has been prepared on the basis of the results collected by means of a common to all partners Evaluation Questionnaire. There will be described the outcomes from the evaluation of the e-content platform and the models of the validation and certification system.**
